

TRANSFER DATA FROM LS TO FLASH DRIVE

Begin at [HOME SCREEN]

Tap [FILES]. This takes you to the [FILES] Screen.

Tap [DATA EXCHANGE]. At the lower right side. This takes you to the [DATA EXCHANGE] Screen.

Tap [EXPORT]

This takes you to the [SAVE FILE IN FOLDER: (System Root)] Screen.

Insert Flash Drive into center slot on R/H side of LS. Light in Flash Drive should come on.

Tap [REFRESH] Icon near upper center of screen. [USB] should show up in list on L/H side of screen.

Tap on [USB].

Tap [OPEN]. You should see a list of file, or jobs, that are on the Flash Drive.

Tap on the [PRESENT JOB NAME] near center right to select it.

Typewriter will come up. Change the name at the top, or just tap [OK].

This brings you to the [EXPORT TO FILE] Screen.

Tap [NEXT].

This brings up the [EXPORT FILE PREVIEW] Screen.

Tap [EXPORT].

Then tap [OK].

Data should be on the Flash Drive.
